Lab Instructions
Lab Instructions

In this lab, you will explore Azure Machine Learning.

To complete this lab:

1. Ensure you have created an Azure Subscription and downloaded the lab files as described in the Setup Guide.

2. Follow the instructions in the lab document.

3. Answer the review questions on the next page.

Note: Depending on your browser settings, the setup guide and lab documents may open in a new browser tab. Alternatively, a blank tab will open and the document will be downloaded to the downloads folder on your computer. You can then open the downloaded document in a PDF reader.
